"Textual" Web

- Passive: links towards resources
- Active: every site, a URL
  - Decentralized

Semantic Web

- Passive: links towards resources

- Acrive: two issues
  - Learning curve (RDF etc.)
    - DB (etc.) → RDF
    - TEI → RDF
  - Mortality
    - Solution 1: centralize (DBPedia etc.)
      - But: *not* decentralized
    - Solution 2: PURL / w3id
      - But: project fever (sustainability, role of research institutions)
